SUMMARY

I'm a Full Stack Web Developer in training with a background in project work & implementation of new technology for a major hospitality company. I enjoy having my own responsibility but to also be part of bigger projects & to work alongside like-minded individuals. Currently training with the University of Birmingham - as part of a bootcamp course.

TECHNICAL SKILLS

JavaScript ES6+, CSS3, HTML5, Node, Bootstrap, JQuery, GitHub + more to come (SQL, NoSQL, MongoDB, MySQL, Express, React, Handlebars)

EXPERIENCE

Implementation Manager   **July** 2019 – February 2022
Greene King   Field Based

In this role, it was my duty to help aid the transition of new technology into our pubs. This role included working with the pubs teams, pub managers & customers as well as returning critical and constructive feedback to our wider team to support the project rollout. (The strategy & transformation team)

Key Accomplishments:
- Being offered a team leader role
- Winning the 'we care' company value
- Participating in multi-million pound projects and having my voice heard

Various Roles   **March** 2015 – June 2019
Greene King   Brownhills/Walsall

During this time period with Greene King I had various roles & responsibilities. I started as a team member, then team leader and onto assistant manager of a venue taking approx £30,000 net per week. During my time as an assistant manager I also did some relief work including holding a pub for 8 weeks.

Key Accomplishments:
- Being given the role of the Christmas champion 3 years running
- Being part of a new-build pub & help build its reputation from nothing to an established business
- Consistently learning & taking on new responsibility - I found there was always something new I could learn.
